## EDUCATION

---

**Wheaton College, Norton**

B.A. in Computer Science

Major GPA: 3.04/4.00

*expected May 2015*

## WORK EXPERIENCE

---

**Tech Support Manager**

*Technician Manager*

September 2013 - present

*Wheaton College, MA*

- I am currently employed in the Wheaton College IT Department helping faculty, staff, and students resolve issues on their electronic devices. This includes computers, phones, software, etc. I primarily assist in the installation of various softwares and diagnosis of hardware problems, both over the phone and in person. As manager, I also handle incoming emails, phone messages, and oversight of other workers.

## PROJECTS

---

**Leap Back**

*Lead Developer*

September 2013 - 2014

*Wheaton College, MA*

- A semester long independent team project for the course "Future Interaction".
  - Working as team to develop a mini game. We created a retro style game with using the Leap Motion SDK and pygame API.
  - "Portal Ball": A basket ball like game where the hoops are moving. The goal of the game is to throw a ball through the one portal and catch the ball as it comes out the other. If the ball re-enters a portal without being caught first, the game is over. The higher the score the more difficult the game play gets.

**Web App Design**

*Lead Developer*

September 2014 - present

*Wheaton College, MA*

- A semester course on Web Development and Design .
  - Working both alone and in groups we are delving into developing web pages and full sites. The work is visible on GitHub. User name, dshelts. Repo, comp398.

## COMPUTING SKILLS

---

**Programming Languages**

Python, C++, HTML, CSS

**Operating Systems**

MacOS, Windows

**Tools**

GitHub, Office 365
